Smarter Together

By listening to our customers, we create solutions that are smarter such as the Samson Nano.

Leaner Together

We conduct a full analysis of your packaging needs to make your business leaner.

A handy guide to the packaging solutions we offer

Free packaging auditing service.

Companies wishing to review their packaging spends and packaging waste can invite one of our **specialists** in, consult on their requirements, and conduct a full audit of their current operation to see how they can save money and waste.

The factors to consider when auditing a company's packaging are extensive. From the purchase price and depreciation of equipment, to servicing and maintenance, to staff time, to costs for goods unsuccessfully wrapped and causing wastage, to costs of the products used, the list goes on.

Most companies conducting an audit through **Samuel Grant**, see a **significant reduction** in their packaging spends.

more info.

Wrapping

The **Samson Nano** improves client pallet wrapping operations with a faster, safer, smarter device, offering added value with a clear price-per-pallet-wrapped transparent costing system.

In 2018, we were awarded the Queen's Award for innovation for Samson Nano.

THE QUEEN'S AWARDS
FOR ENTERPRISE:
INNOVATION
2018

Smarter

Innovative Technology

Enables you to benefit from the latest stretch wrapping technology

Accountability

Daily usage and timeline emails

24/7 Login

Monitor wrapping and expenditure anytime and remotely

Greener Solution

Increased efficiency reduces packaging waste

Better Value

Free Machine

No capital expenditure outlay

No Maintenance or Servicing Costs

Machine is our responsibility

Samson Nano Wrap Guarantee

Only pay for the pallets that are successfully wrapped

Completely Risk Free

Machine can be returned simply and easily if necessary

Faster

Superior Performance

Higher quality film allows faster wrapping

Full Range of Machines Available

Fully automatic, semi-automatic, rotating arm or robots

Increased Productivity

Wider carriage options available for increased throughput

Film Always Available

The Samson Nano automatically re-orders film

Safer

Less Damage

Superior wrapping ensures less damage during transport

No Unstable Loads

Smarter wrapping ensures pallets are wrapped safely

26 Degree Test

Standard tip angle for forklifts and transportation

EU Compliant

Machine complies with highest quality and safety standards

When a client comes to us for pallet wrapping advice, we are able to offer complete solutions to their packaging requirements, saving waste, cost and space. To book a consultant to discuss your requirements **get in touch.**

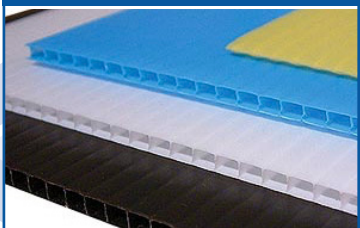

Cartons and Boxes

We can provide cartons and boxes for a wide variety of jobs, with products coming in all different shapes and sizes.

This is a small selection of adhesives, tapes and labels we supply. For specific requirements, get in touch.

Adhesive guns

Tape dispensers

Cloth, foam and foil tape

Coloured tape

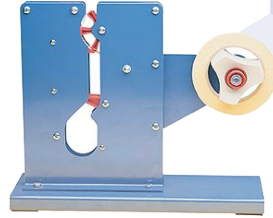

Double sided tapes

Glue dots and sticks

Bag sealers

Masking and electrical tape

Printed and barrier tapes

Standard tape

X1 and X2 tape

Protective and Postal Products

Our experts are committed to reducing packaging waste, and often this comes in the form of **protective products** used in transit.

Foam packaging

Edge protectors

Mail bags, tubes and envelopes

Bubble wrap and bags

PAPERplus®

AirShield Packaging

Rubber bands and twine

Packaging Paper tags

Void filling

We **advise** on all forms of postal and protective solutions to provide the best and most cost-effective solution for your precious products. **Get in touch** to speak to one of our packaging advisors.

Strapping and Transit Products

As one of the UK's leading **strapping** providers, our team go the extra mile to ensure that clients receive not only the best value for money, but also the best ongoing customer service.

Polypropylene strapping

Strapping / Printed Strapping

Woven strapping

Metal strapping

Strap and seal kits

Pallet Boxes

Strapping & semi-auto strapping tools

Strapping tensioners

We are able to source and provide strapping and transit products to suit all types of requirements. To discuss your needs with a strapping and transit expert, **get in touch.**

Machinery

We are always happy to source machines for all kinds of packaging processes to allow our customers to make the most of their packaging products.

We are able to source machines for most things, the below are just examples, but do feel free to challenge our team, and we'll put our contacts to good use to find what's needed.

Shredding Machines

Carton Sealers

Automation

Packing stations

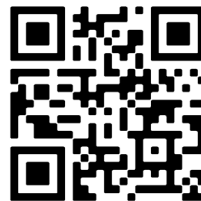

Paper & airbag machines

We are able to source and provide machinery products to suit all types of requirements. To discuss your needs with a machinery expert, **get in touch.**

Pallet testing

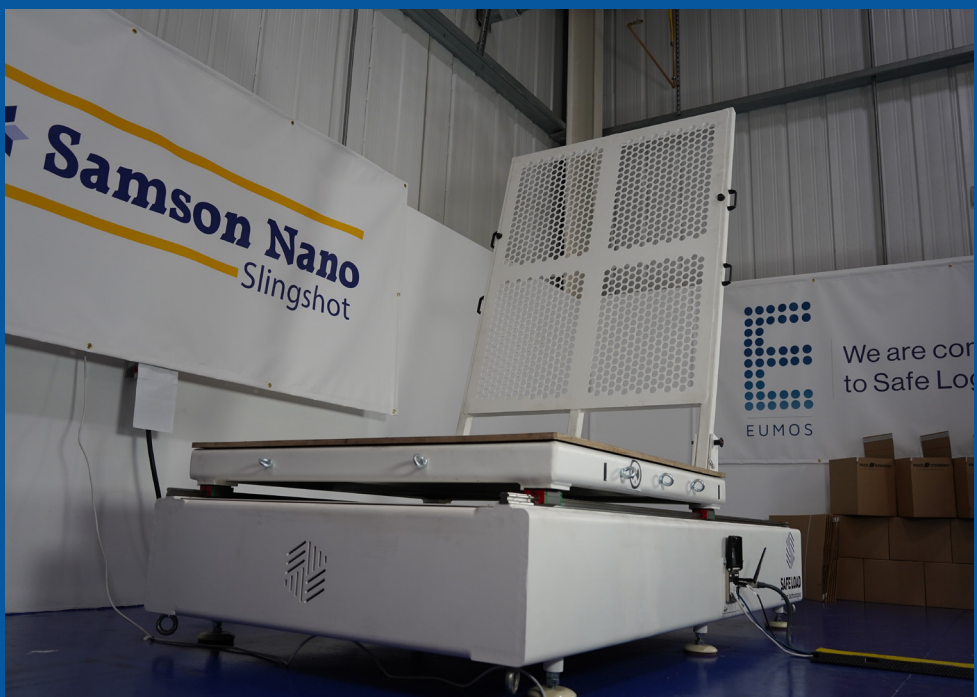

Samuel Grant Packaging are delighted to announce the launch of the Samson Nano Slingshot, which makes their pallet testing laboratory the only EUMOS certified centre for horizontal pallet load security testing in the UK.

www.samuelgrant.co.uk/testing

This type of pallet stability testing machinery is already making an impact in Mainland Europe, but the Slingshot is the first of its kind to be installed in the UK and unique to Samuel Grant Packaging. The Samson Nano Slingshot replicates the inertia of a vehicle and whether the load will potentially displace. The machine can initially test at 0.1G and work up to the EUMOS standard of 0.8G. From the pallet data entered, the maximum deformation of the load is calculated to create a pass or fail.

Strapping

Samuel Grant Packaging boast a dedicated **strapping specialist sales team, strapping tool and machine engineers**, combined with over 130 years experience in the packaging industry.

We have an industry leading experienced sales team offering specialist knowledge on all strapping applications.

Our team of service engineers offer in-house servicing in our fully equipped workshop.

Our extensive range of strapping tools and machines are available to rent or buy. We also offer an inspection and repair service for customer owned tools.

Our strapping specialists undertake a full site evaluation offering technical advice and support to improve costs and efficiency.

With over 130 years experience in the packaging industry, we will never compromise on quality.

We are one of the UK's major stockists of polyprop, polyester, steel strapping plus related tools and ancillaries.

Often when a client comes to us for strapping advice, we are able to offer complete solutions to their packaging requirements. To book a consultant to discuss your requirements **get in touch.**

Clingfoil

COMPLETE PACKAGING SOLUTIONS

Clingfoil are now part of the Samuel Grant Group

By bringing Clingfoil's manufacturing capabilities into the Group, Samuel Grant will be able to combine their expertise with their own, and actively seek out new innovations and products that can deliver improvements and efficiencies for its customers. The acquisition will allow the team to further develop and research 30% recycled machine and hand stretch film for pallet wrapping. In the light of the recent Plastic Tax being introduced, the ability to research and develop new films in house will add a huge amount of value to Samuel Grant's stretch film and pallet wrapping proposition.

We understand the importance of a **strong partnership**. That's why we **listen** to our customers, we learn about their business and we offer total support.
