

Maintenance Engineer

Sheffield

We are currently looking to recruit an enthusiastic and committed individual to work alongside other Engineering Team members when commissioning, servicing, maintaining and repairing Samson Nano Stretch Wrapping machines and Strapping tools (ad hoc).

Keys responsibilities include:

Commissioning, testing, installing, maintenance, and servicing of Stretch film Wrapping Machines – both in the field and at Sheffield Nano site.

Completing daily issued works Orders on tablet for call out, repairs or servicing as allocated by Manager/Supervisor/Team Leader

The role is based at Sheffield site but the stretch wrappers are all over the UK, travelling from Sheffield to site daily

60/40 mechanical/Electrical bias

Working overtime as and when required – occasional overnight stay

Work with the Engineering Team Leader to ensure spares are topped up in allocated van for works orders

To assist with Nano slingshot if required

Report any fault finding

Set up and take down of approx.. 3 exhibitions in the UK

Proactive ideas/solutions encouraged

Wherever necessary act as a mentor for Engineering Workshop trainees, providing guidance and advice as required.

Experience
